

# ENVE 4030 HAZARDOUS AND SPECIAL WASTE MANAGEMENT TERM PROJECT

*Due to December 25, 2017 17:00*

*Projects will be checked on December 27, 09:30-12:30 and 13:30-17:30*

You are the engineer in charge of the management of wastes generated in XXX Company.

- Identify and list the **sources** of waste generation
- List the **hazardous** and **special wastes** generated
- Find the appropriate **waste codes** from the European List of Waste (Commission Decision 2000/532/EC) (Turkish counterpart is Atık Yönetimi Yönetmeliği, R.G. 2 Nisan 2015, Sayı: 29314, Ek-4 Atık Listesi)
- Specify and list the **practices** you follow for handling, storage (labels, containers) and transferring (forms) the wastes off-site properly.

## Notes

- Establish a group composed of maximum 4 students
- Choose one of the following economic activities via this link <https://doodle.com/poll/9a9wzkgtycw8vgp5>
- Same activity cannot be chosen by two groups
- Prepare and submit a report of max. 1 sheet (2 pages) with a **graphical abstract\***

\*Graphical abstract is one single-panel image that is designed to give readers an immediate understanding of the take-home message of the report.

	XXX Company is a(n) ....	Group members
