

Introducing Environmental Science and Sustainability

Melting ice in Greenland. Earth's climate system is composed of complex interactions among the atmosphere, ocean, land, ice, and human activities. The warming climate is causing the Greenland ice sheet to melt at more than twice its previously observed rate. As the ice continues to melt, the water will raise the global sea level. Chapter 1: Introducing Environmental Science and Sustainability

Environment, 7th Edition. Raven, Hassenzahl, Berg

Ecosystems and Energy

Cordgrass (*Spartina*) in a Chesapeake Bay salt marsh. (Stephen J. Krasemann/Photo Researchers, Inc.)

Chapter 3: Ecosystems and Energy

Environment, 7th Edition. Raven, Hassenzahl, Berg

The screenshot shows the EPA website's Sustainability page. The header includes the EPA logo and navigation links for 'Learn the Issues', 'Science & Technology', 'Laws & Regulations', and 'About EPA'. A search bar is present. The main content area is titled 'Sustainability' and includes a brief introduction, a 'Learn about Sustainability' section with a photo of a person, and a 'How Can I Help with Sustainability?' section with icons for 'Greener Living' and 'Sustainable Manufacturing'. There are also links for 'Sustainability Resources' and 'EPA Blog'.
